

## DOOB TOKEN WHITE PAPER

Version: June 2025

### THE DOOB VISION

DOOB is a community-driven meme token built on the Solana blockchain. It draws inspiration from cannabis culture, meme energy, and the ethos of decentralized experimentation.

The idea is simple: roll one and build. There are no fake staking schemes, no anonymous teams, no inflated promises. Just vibes, transparency, and a clear record on-chain. If something useful emerges, cool – until then, it's a cultural experiment with no expectations.

DOOB isn't a financial product. It's not trying to be the next big thing. It's an open experiment in alignment, humor, and digital identity.

### TOKEN DETAILS

Token Name: DOOB

### TOKEN DISTRIBUTION

All DOOB tokens were minted at once. No additional supply can ever be created. Allocations are distributed across publicly visible wallets:

Airdrop Reserve: 360,000,000

Meme Fund: 180,000,000

Access Reserve: 180,000,000

Development Wallet: 1,440,000,000

Ecosystem Reserve: 6,660,000,000

Community Fund: 2,250,000,000

LP Burn (Resin Treasury): 4,260,000,000

Unallocated Vault: 2,130,000,000

All allocations are final and traceable on Solana.

## LIQUIDITY

At launch, D00B was paired with SOL to create a liquidity pool on Solana. The LP tokens from this transaction were sent to the D00B treasury burn wallet:

Burn Wallet: F8p1yqLYUcpkewv9sUVFPy4HeiH1nJRPkVeLHidzG9s3

This permanently removes the LP tokens from circulation. No liquidity can be withdrawn. The pool is publicly viewable and remains trustless and open for trading.

## CONTRACT MECHANICS

D00B is a standard SPL token with no transfer modifiers or hidden behaviors.

No taxes

No auto-burn

No redistribution logic

No hooks or gimmicks

Maximum compatibility, minimum bullshit.

## PHILOSOPHY

No DAO

No anonymous teams

No VC funding

No roadmap promises we can't deliver

No unnecessary bloat or hype

We believe in small tokens with big culture. D00B is for creative people, cannabis enjoyers, builders, artists, degenerates, and anyone else who vibes with it.

## COMMUNITY

We currently maintain an Instagram account. There is no Twitter presence and no official Telegram or Discord at this time. Communication will happen through the website and optionally through future on-chain messaging tools.

Contributions welcome – memes, ideas, collabs, tools.

#### GOVERNANCE & MULTISIG

Multisig is planned for all treasury wallets but is not yet implemented. Until then, funds are transparently held in publicly visible addresses. Governance will remain minimal. D00B is not governed by a DAO and never will be.

#### DISCLAIMERS

D00B is a meme token. It has no intrinsic value, no expected utility, and no roadmap that guarantees returns. It exists for cultural experimentation and entertainment only.

Participation is entirely at your own risk. Always do your own research and never spend what you can't afford to lose.
